Further information on fuel consumption and CO2 emissions can be found on pages 66-68 or consult your BMW partner.
Maximum performance at the limit. The BMW M4 Coupé, BMW M3 Saloon and the BMW M4 Convertible confront the laws of physics – three icons that yet again set new standards with unprecedented precision. But they don’t just push the physical limits. They also extend the boundaries for the driver, making what was once thought impossible, possible – when man and machine become one.

EXPERIENCE ALL THE HIGHLIGHTS IN THIS SHORT FILM.
The M TwinPower Turbo engine delivers the best of both worlds in each of the three models: a 7,600rpm high-revving concept and highly efficient power – with peak torque of 550Nm and output of 317kW (431hp) at your command. With the optional 7-speed M dual-clutch transmission, it takes 4.1 seconds to reach 100km/h (4.4s in the BMW M4 Convertible); 200km/h arrives 9.5 seconds later (BMW M4 Convertible: 10.4s). The overall concept, now in its fifth-generation, has reached a new peak of technical perfection. And you will feel the results in every kilometre.
Master every driving situation. A perfected lightweight construction concept and an extremely low centre of gravity provide the basis for exceptional handling characteristics. The intelligent material mix of carbon and aluminium ensures outstandingly low vehicle weight. And thousands of test laps have proved, without question, that the BMW M3 Saloon, BMW M4 Coupé and the BMW M4 Convertible set new benchmarks when it comes to agility and dynamism.

EXPERIENCE M GENES AT THE LIMIT IN THIS SHORT FILM.

CARBON. ALUMINIUM. ADRENALINE.
PUT THE BRAKES ON PHYSICS.

Everything is designed for maximum control in the driver-orientated cockpit: all elements, such as the M seats with their bucket-style character and the M leather steering wheel, ensure perfect ergonomics and command of the vehicle – even in the most dynamic situations. The optional M Carbon Ceramic Brakes reduce weight even more and, with their larger discs and increased number of pistons, further optimise performance, the motor sport feel and service life. The M-specific BMW Head-Up Display, available on request, projects the most important data into your field of vision – so you always keep your eyes on the road. Because what you can see, you can also master.
FRESH AIR, TO TAKE YOUR BREATH AWAY.

The apex of the curve is clearly in sight, the machine under perfect control. Like the BMW M4 Coupé and the BMW M3 Saloon, the BMW M4 Convertible has been designed using motor sport technology for pure dynamics at the performance limits. The aerodynamic M design, meanwhile, does more than showcase your commanding position. It also helps you hold your lead in the race.
YOU DECIDE WHO COMES FIRST.
INNOVATION AND TECHNOLOGY.

M TWIN POWER TURBO ENGINE: Power with maximum efficiency.

BMW EFFICIENT LIGHTWEIGHT CONSTRUCTION AND ATHLETIC DESIGN: The art of engineering – at its most powerful.

CHASSIS: Innovative systems for more driving pleasure.

BMW CONNECTED DRIVE: Services & Apps and driver assistance.
Experience a new dimension of driving enjoyment and efficiency with the innovative BMW engines featuring M TwinPower Turbo technology. This innovation package – a milestone of the BMW EfficientDynamics strategy – combines the latest fuel injection technology and fully variable valve control and camshaft adjustment with innovative turbocharging technology to increase dynamism and efficiency. The result: pure driving pleasure.

M TwinPower Turbo engine.
Performance with maximum efficiency.

A passion for innovation and technology combined with many years of motor sport experience flow into every engine developed by BMW M GmbH. It follows that the interplay of all components, including M TwinPower Turbo technology with Valvetronic, two weight-optimised mono-scroll turbochargers, the forged crankshaft and the high-performance cooling system delivers outstanding responsiveness and maximum performance output in the M TwinPower Turbo engines. At the same time, emissions and fuel consumption are reduced.

M TWIN POWER TURBO INLINE SIX-CYLINDER PETROL ENGINE.

BMW M4 Coupé / BMW M3 Saloon / BMW M4 Convertible.

- M TwinPower Turbo inline six-cylinder with 317kW (431hp) and 550Nm of torque
- Acceleration 0–100km/h: 4.1s1 for the BMW M4 Coupé/BMW M3 Saloon and 4.6s (4.4s)1 for the BMW M4 Convertible, each with six-speed manual M transmission
- Top speed: 250km/h (restricted)
- Combined fuel consumption: 9.8l/100km (9.3l/100km)1 for the BMW M4 Coupé/BMW M3 Saloon and 9.1l/100km (9.3l/100km)1 for the BMW M4 Convertible, each with six-speed manual M transmission
- CO₂ emissions: 204g/km (194g/km)1 for the BMW M4 Coupé/BMW M3 Saloon and 213g/km (203g/km)1 for the BMW M4 Convertible, each with six-speed manual M transmission

1_values apply to vehicles with 7-speed M double-clutch transmission
2_Fuel consumption and CO₂ emissions are dependent on wheel and tyre size.
For more information, see pages 21–24

Expe
BMW EfficientLightweight construction and athletic design.
The art of engineering – at its most powerful.

The BMW M4 Coupé, BMW M3 Saloon and BMW M4 Convertible deliver maximum driving pleasure coupled with an outstanding performance/fuel consumption ratio thanks to BMW EfficientLightweight construction measures in combination with athletic design.

BMW M engineers are always exploring the development of intelligent vehicle concepts. And the results, from drivetrain innovations through to body components, are integrated specifically into M vehicles – for exceptional driving performance with impressive efficiency.

BMW EfficientLightweight construction

M TwinPower Turbo technology featuring a high-rev concept combines performance with efficiency. Innovative turbo technology, High-Precision Injection, fully variable Valvetronic valve control, Double-VANOS and the high-rev principle guarantee immediate responsiveness, linear power development over a wide range of engine speeds and a unique sound.

BMW EfficientLightweight construction is a peak priority in M vehicles. This is because low weight is the optimum platform for the best driving dynamics and exemplary efficiency. Ultra-light materials such as aluminium and carbon fibre-reinforced plastic (CFRP) are used in many components. This all ensures greater agility and dynamism, including improved acceleration and braking.

Comprehensive and coordinated aerodynamics measures optimise driving dynamics, stability, controllability and cooling of M vehicles, particularly at high speeds. Reduced air resistance also improves performance and lowers fuel consumption.

With Brake Energy Regeneration, the alternator generates electricity primarily when the driver brakes or takes their foot off the accelerator. Previously unused kinetic energy is transformed into electrical energy and fed into the battery.

The Automatic Start/Stop function switches the engine off when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam) to reduce overall fuel consumption. When the driver presses on the clutch (six-speed manual) or takes their foot off the brake (optional 7-speed dual-clutch transmission with Drivelogic), the engine automatically starts up again in a fraction of a second.

Carbon roof. As part of the BMW intelligent lightweight construction concept, the roof of the BMW M4 Coupé and BMW M3 Saloon is made of carbon fibre-reinforced plastic (CFRP). This helps to reduce mass while also lowering the centre of gravity. And this, in turn, increases agility and dynamics when cornering, accelerating and braking. The carbon fibre structure is visible.
Chassis.  
A solid foundation for superior driving dynamics.

Conventional rules do not apply to the BMW M4 Coupé, BMW M3 Saloon and BMW M4 Convertible. As independent productions of BMW M GmbH, they are faithful to the M philosophy and perfectly combine high performance with optimum, everyday practicality. To fulfill these high aspirations, the intricately constructed M high-performance chassis has been entirely redeveloped.

The intelligent networking of chassis components and control systems ensures maximum driving dynamics and agility as well as a high degree of precision and control. Experience fascinatingly authentic driving feel.

The Active M Differential optimises traction and driving stability when changing lanes or accelerating out of curves, when cornering at high speed or on roads with uneven surfaces. Traction is improved via an electronically controlled device that reduces the difference in revolution speed between the rear wheels.

M Dynamic mode enables the maximum exploitation of lateral and longitudinal dynamic potential for a particularly authentic driving experience. It works by raising the intervention threshold of the Dynamic Stability Control (DSC) system, although the driver is still supported in critical situations.

With the optional Adaptive M suspension, electronic control of the shock absorbers ensures optimised road contact and traction in any situation. The suspension settings can be adjusted from comfortable through to sporty-dynamic via the COMFORT, SPORT and SPORT+ modes.

M Servotronic adjusts the power steering to suit the current speed and, even at high speeds, ensures direct and precise steering responses. It also provides excellent comfort by minimising the effort required for steering, as well as maximising agility when parking, manoeuvring and navigating narrow or twisting roads.

The optional 7-gear M dual-clutch transmission with Drivelogic is an innovative dual-clutch system specially designed for the high-revving BMW M engine. It enables extremely fast gear changes without any loss of tractive force. Two sub-transmissions, each with its own clutch, continuously relay engine power to the rear wheels.

With the optional M Carbon Ceramic Brake System, braking power is implemented more directly. It doesn’t corrode, tolerates more heat, is highly resistant to abrasion and contributes to lower vehicle weight, which has a positive impact on agility, dynamics and acceleration. Brake calipers in Gold Metallic with the M logo make this special technical feature visible from the outside of the car.
BMW ConnectedDrive
So connected, you’re free.

Our world is becoming more closely connected every day. And for BMW drivers it goes without saying that they can request information, communicate via telephone or email and always be up to date – all while they’re on the go. The BMW ConnectedDrive concept encompasses all the services and innovative technologies that link BMW vehicles and their passengers to the outside world and surrounding traffic.

BMW ConnectedDrive, with its intelligent services and assistance systems, is ready with all the right equipment. BMW ConnectedDrive Services & Apps offer more freedom by providing versatile connections between the driver, vehicle and outside world. BMW ConnectedDrive Driver Assistance systems make driving a BMW safer and more comfortable. And intelligent systems make life easy for the driver and minimise the dangers of traffic.

The optional BMW Head-Up Display with M-specific display (only in combination with a navigation system) projects driving-related information directly into the driver’s line of sight. Pressing a button activates the M-specific display, which additionally shows the selected gear in the six-speed M manual transmission or the optional 7-speed dual-clutch transmission with DriveLogic, rpm as a dynamic range curve and shift lights to indicate the optimum moment to change gear.

The Driving Assistant combines the Lane Departure Warning and Approach Warning systems. The Approach and Pedestrian Warning with City Brake Activation issues a warning if there is a risk of collision with vehicles or pedestrians and brakes the vehicle in the event of an emergency. From a speed of approx. 70km/h, the Lane Departure Warning draws the driver’s attention to an unintentional lane change by means of slight vibrations in the steering wheel.

The BMW LapTimer app*, driving data from the racecourse can be precisely recorded and analysed to improve driving-performance. The recorded information, in categories such as accelerator pedal, steering angle, G-force and best lap time, can be posted as snapshots to Facebook or Twitter or sent by email.

The BMW ConnectedDrive Services* option provides the driver with a wide range of information, entertainment and service features on the road.

It also includes BMW Online, which enables you to access current, localised information such as weather, news and an online search powered by Google™, as well as various office functions. You can also combine individual services and features such as webcams, fuel price info, parking information, travel and hotel guides in the “Applications” menu.

The secure and comfortable use of selected smartphone applications is also included for an unlimited period of time. The ConnectedDrive Services option also includes access to the BMW ConnectedDrive Store, in which services and apps can be booked, extended and selected according to individual needs, at any time and from any place. The ConnectedDrive Services option also offers much more to make each journey in a BMW into a real experience.

*May not be available in all countries. Please consult your BMW partner.
*For further information on BMW ConnectedDrive, please visit www.bmw.com/ConnectedDrive.

†Vehicle of the display is fitted with optional sunglasses. BMW Head-Up Display functionality shown is dependent on equipment. Image shown features the peripheral collision equipment, which is designed to complement the driver assistance systems of your BMW M3 Coupe, BMW M3 Saloon or BMW M4 Convertible from a completely new perspective. For more information, go to Business.Solutions@bmw.com.
INDIVIDUALITY AND VERSATILITY.

EQUIPMENT: Equipment highlights and BMW Individual.

COLOUR: A world of colour for the exterior and interior.

TECHNICAL DATA: Engine, performance, fuel consumption, weight, wheels and dimensions.

BMW SERVICE: BMW Service, BMW Financial Services and BMW Experience.
The athletic design of the BMW M4 Coupé accelerates the senses – even at a standstill. Striking interior design with circular, M-specific instruments, the M leather steering wheel with chrome trim and coloured contrast stitching as well as the optional Carbon Fibre interior trim.
The bold design demonstrates the innate power of the BMW M3 Saloon. The athletic interior is characterised by typical M driver orientation and perfectly crafted materials. The ergonomically optimised shift lever of the optional 7-gear dual-clutch transmission with Drivelogic conveys motor sport feel and the free-standing Control Display presents all functions in particular clarity.
At the front, multi-faceted surfaces, precise contours and a strong three-dimensional feel give full expression to a new understanding of design from BMW M. The exclusive cockpit with typical M driver orientation exemplifies the ergonomic concept of M vehicles. All control elements and displays, as well as details such as the M driver’s footrest, are consistently focused on the driver. The emphasis, as in motorsport, is on intuitive control combined with the fastest possible reaction times.

The “fast” side lines and sporty, flat rear combine high dynamism with the utmost elegance. The M seats are distinguished by their perfect ergonomics and body support during dynamic driving. Shown here in optional Sakhir Orange full fine-grain Merino leather. The M light alloy wheels feature sporty design and contribute to the car’s weight reduction. 19” M light alloy wheels 9-spool S13 M with mixed tyres, as standard.
BMW Individual

The expression of personality.

The BMW Individual M3 Saloon. A sporting icon that also sets the aesthetic standards.

- The unmistakable appearance of a legend: inspired by azurite crystals, the BMW Individual paint finish Azurite Black metallic, in the fall of light, reveals a unique spectrum in blue beneath its deep-black surface, giving the BMW M3 Saloon a particularly elegant presence.

The fifth generation, the highest values: The palpably fine structure and exquisitely soft surface of the BMW Individual fine-grain Merino leather in Amaro Brown impresses with its velvety look and supple feel. The interior trim Plane Auburn dark in hand-selected fine wood complements the leather perfectly.

EXPERIENCE BMW INDIVIDUAL INTERACTIVE.

WITH THE BMW INDIVIDUAL iPAD APP.
Equipment Highlights.

[01] The precision strut brace in carbon-fibre-reinforced plastic (CFRP) increases frontal rigidity for improved steering precision and accuracy.

[02] As part of the intelligent lightweight construction concept, the carbon roof helps to lower the vehicle’s centre of gravity.

[03] Glass roof, electric, with button-controlled slide and tilt function. Not with carbon roof.

[04] Aerodynamically optimised M wing mirrors with double-bridge design and integrated LED indicators embody sporty character.

[05] The M kidney grille with high-gloss black double slats and model designation emphasises the forward-thrusting design of the front section.

[06] The two bevelled M double tailpipes in high-gloss chrome fit harmoniously into the flowing lines of the rear apron.

[07] Adaptive LED Headlights including low- and high-beam headlights, LED indicators and BMW Selective Beam (anti-dazzle High-Beam Assistant)

[08] The striking M gills underscore the sporty look and, along with the integrated Air Breather, optimise aerodynamics.

[11] Through the use of various materials, M compound brakes achieve outstanding deceleration values and high stability as well as a long lifespan.

[12] The M Carbon-Ceramic Brake System offers even better braking performance and great stability. It also contributes to the further reduction of rotating mass.

EQUIPMENT HIGHLIGHTS.

Harman Kardon Surround Sound System with 600-watt digital amplifier, nine channels, vehicle-specific equalizer and 16 loudspeakers including centre speaker. [02] M seats with bucket-style character, integrated head restraints, perfect body support from high side bolting, backrest width adjustment and lumbar support. [03] The wind deflector effectively protects the driver and front passenger from draughts. When not required, it can be easily stowed behind the rear seats. [04] BMW Individual leather-covered instrument panel (X7i) upper section in Black Nappa leather and lower in fine-grain Merino leather in upholstery colour. Door panels trimmed in leather. [05] Neck warmers provide the head and shoulders with pleasantly warm air for particularly comfortable driving when the roof is open. [06] Electric seat adjustment with memory function enables perfectly tailored seat positioning: seat height, backrest angle, fore-and-aft seat position and seat angle.

The M leather steering wheel in Double-spoke design with M emblem, M Drive buttons, chrome detailing and coloured contrast stitching. [09] MDrive enables the individual configuration of the vehicle set-up through adaptation of the engine, damper and steering characteristics, as well as the transmission. [10] 8-speed M Dual clutch transmission with Dsctractive traction-optimised automatic gear selection. Launch Control, Low Speed Assistance, Automatic StartStop function. [11] The BMW Head-Up Display projects important information directly into the driver’s line of sight. In M mode, it also shows the selected gear, engine speed and shift points. [12] Navigation System Professional, including split screen function and Professional radio with DVD drive. [13] Convenience telephone with extended smartphone connectivity enables the integration of mobile phones and hands-free functionality via Bluetooth.

* The BMW M4 Convertible features the Harman Kardon Sound System with 12 loudspeakers, fore & aft systems.
* Image shows M seats at the optional Saphiree full fine-grain Merino leather
* Only available for the BMW M4 Convertible at the BMW M4 Sedan.
* Only available with BMW Individual full fine-grain Merino leather.
* Inability of the display to switch with potential adaptation in the case of display failure.
* In certain markets, features such as lane change assistant and emergency call are automatically updated up to four times a year for three years without forming costs.
* For information on Bluetooth compatible smartphones and other devices, see www.bmw.com/mobile.

---

All optional equipment in this brochure can be installed in the factory. For additional requests, your BMW M4 Coupé or Convertible can provide accessories brochures offering a wide range of features. If you have any specific wishes for your BMW, there is also BMW Individual, which is sure to have exactly the right equipment to meet any requirement.
Well taken care of with BMW services:

When you buy a BMW, you can look forward to superb service and comprehensive customer care. For example, the Condition Based Service independently tracks both service fluid levels and the condition of parts subject to wear and then notifies you in the display when the vehicle requires servicing. So you only need to go to your BMW service partner when it’s really necessary. When you do go, our qualified BMW service specialists take care of your vehicle using the newest workshop technology and only original BMW parts. This service is available worldwide in more than 3,300 BMW service partner establishments in over 150 countries, to provide you with limitless driving pleasure.

BMW Service.

BMW Service Inclusive*: The BMW Service Inclusive service packages ensure that costs for maintenance, inspection and worn parts are covered for the duration of your contract, allowing you to focus on unlimited driving pleasure. This service is available worldwide from all participating BMW service partners. For more information please visit www.bmw.com/serviceinclusive

BMW Mobile Service*: This service is there for you in case of a breakdown, day and night. Specially trained BMW technicians do everything necessary, on the phone or on site, to get your car back on the road as fast as possible. We offer a comprehensive country-specific mobility package for breakdowns and insurance that covers you in the event of an accident or theft. And in case of an accident, call us at the BMW accident hotline! We’ll take care of calling the police, an ambulance, a tow truck, a replacement car, notifying your insurance company and much more. For more information visit www.bmw.com

BMW Teleservices*: With Condition Based Service, you’ll be automatically notified in the display of your next necessary service appointment. Provided you’ve consented, the most important vehicle data required for analysis will be relayed to BMW automatically. Your assigned BMW service partner will access the information and contact you free of charge to make a service appointment – if one is necessary. To access BMW Teleservices, the vehicle must be equipped with the optional Intelligent Emergency Call or ConnectedDrive Services. If necessary, the service can be deactivated at any time. For more on this topic please visit www.bmw.com/teleservices

BMW Financial Service.

BMW Financial Services: Take it made financial BMW Financial Services offers you attractive leasing, finance and insurance packages. For further information visit www.bmwfds.com or ask your local BMW partner to make an individual offer.

The BMW Experience.

BMW TV*: www.bmw.tv enables you to experience the BMW brand in all its diversity. Features, portraits and background reports provide you with information on automobiles, innovations, sports and lifestyle topics.

BMW Driving Experience: The better you control your BMW, the more enjoyment you will derive from driving it. Use our training courses to learn for yourself what it means to reach a car’s physical limits on various types of surfaces, and what you have to do to control your vehicle even in extreme situations. For further information please visit www.bmwdrivexperience.com

BMW Welt: Collecting a new car at BMW Welt ranks among the best moments any driver can experience. Turn this moment into an unforgettable day, and make the handshake with your new BMW part of a unique programme of activities tailored to your personal preferences. With the BMW Plant, the BMW Museum and the BMW Group Headquarters, you will be surrounded by fascinating history, a breathtaking present and spectacular visions of the future. Find out more at www.bmw-welt.com/en

BMW Magazine: In BMW Magazine, experience the newest BMW models in front of stunning backdrops. Discover new design trends, travel destinations and the rhythm of modern life. Encounter people with visionary ideas who are changing the world. Find out more at www.bmw.com/magazine

In 2014, the BMW Group was once again ranked the most sustainable car manufacturer in the world by the Dow Jones Sustainability Index. It is the only automotive company to have featured on the renowned index every year since its inception. The development of efficient vehicle concepts and eco-friendly production processes, up to and including recycling, is an integral part of our engineering philosophy. BMW EfficientDynamics standards have enabled us to cut the CO2 emissions of our fleet of new vehicles in Europe by more than 30% between 1995 and today. We’re also aiming to reduce the amounts of resources such as water and energy used in production by 45% between 2006 and 2020. Production at our engine plant in Styria has been waste-water free since 2007. And of course each of our vehicles is designed for easy and economical recycling after its long running life. Please contact your BMW partner on all matters regarding your end-of-life vehicle. For further information please visit our websites.

The models illustrated in this brochure show the specifications of vehicles produced by BMW AG for the German market. In part, they include optional equipment and accessories not fitted as standard. According to the specific requirements of other markets, alterations in models, standard and optional equipment, as described in this brochure, may occur. For more precise information about country-specific vehicle versions, please contact your local BMW partner. Subject to change in design and equipment.
